## A RESOLUTION

WHERE-AS, It appears that the present State Administration is sponsoring a sales tax for the State of Tennessee, to be enacted into law during the present session of the General Assembly, which law will provide for the collection of certain taxes to be divided among the several public services of the state, and

Where-as, it appearing from certain statements in the daily press that in the allocation of this tax that the various counties of the state are not going to share in the new revenue, and

Where-as, it appears that Weakley County will need additional revenue to finance all the different services of the County, and the present tax rate against real estate being rather high, we feel that the various counties of the state should share in this new revenue,

Be it Therefore Resolved, that the Weakley County Quarterly Court, now in regular session on this the 6th day of January, 1947, request of all our representatives in the present General Assembly, this day meeting in Nashville, Tennessee, to support a sales tax law, this Court being whole heartedly in favor of an increase in salaries for school teachers, and the entire program sponsored by the Tennessee Educational Association, and, if possible have the law to provide that certain taxes collected as a sales tax shall be allocated to the Counties for road and school purposes.

The above resolution approved by a unanimous vote of the Court.
